

Milestone 3: Final Paper

Due Date: Friday April 24, 2026, 11:59pm.

Objective: Deliver a complete, research-quality paper in IEEE conference-style format.

1. Introduction

- Problem motivation
- Research question(s) or goals
- Contributions

2. Background & Related Work

- Relevant prior work
- Clear positioning of your project

3. Design / Methodology

Tool projects:

- System architecture
- Design decisions
- Implementation details

Research projects:

- Dataset description
- Experimental design
- Variables and controls

4. Evaluation

- Experimental setup
- Metrics
- Baselines
- Results (tables/figures required)

5. Results Analysis

- Interpretation of findings
- Strengths and weaknesses
- Unexpected outcomes

6. Threats to Validity

- Internal validity
- External validity
- Construct validity

7. Conclusion & Future Work
